Procedure

1. Complete this form and return it to SecurePay.
2. Ask your hosting company or IT department to generate a Certificate Signing Request (CSR) for the URL to be secured (refer note below).

Example CSR:

```
-----BEGIN CERTIFICATE REQUEST-----
MIICADCCAwwkCAQAwg8xChZAJBgNVBAYTAkFVMREwDwYD
VMBAGA1UEBxMjTWVsYm91cm51MjMwYm91cm51MjMwYm91
ZSBTeXN0ZW1zIFAvTDEWMBQGA1UECxmNNU2VjdXJlIFN1c
dmF1bHQuZGlyZW50b251LmNvbS5hdTE1MCMGCsGSIb3D
-----END CERTIFICATE REQUEST-----
```

3. Email the CSR *unchanged* to ssl@securepay.com.au
4. SecurePay will process your request.
5. Your SSL certificate will be emailed to your technical contact.
6. Provide your certificate to your hosting company or IT department for installation.
7. Start using your new secure web pages.
